
III. ADDITIONS AND CORRECTIONS

In response to the public and agency comments on the Draft EIR, no additions or corrections to the Draft EIR were required. Nevertheless, in response to one particular comment provided by the LAUSD the following mitigation measure was added to the Mitigation Monitoring and Reporting Program.

ADDITIONAL MITIGATION MEASURE

1. During the construction plan and haul route approval process, the project contractor shall consult with the LAUSD Transportation Branch (tel: (323) 342-1400) to address potential impacts upon existing pedestrian and school bus routes. Contractors must guarantee that safe and convenient pedestrian routes to school are maintained. The project contractor shall install appropriate traffic controls (signs and signals) as needed to ensure pedestrian and vehicular safety. The project contractor shall fund crossing guards for safety of students, as needed, during construction activities at impacted crossings.
